CHINESE SOCIETY OF FORESTRY

# Chinese Society of Forestry

# WHO AM I?

The Chinese Society of Forestry (CSF) is an academic, science popularizing and non-profit organization whose membership is mainly composed of administrative personnel, experts, researchers and technicians in the forestry sector. Founded in 1917, it is the largest and longest professional society for forestry in China.

# Mission

- To advance the science, education, technology, and practice of forestry.
- To further the popularization and extension of forest science and technology.

# MEMBERSHIP

- CSF membership includes individual membership, senior membership ,group membership and international membership.

It now has 100,000 individual members, 1000 senior members, and 200 group members, and some of international members.

# ORGANIZATION

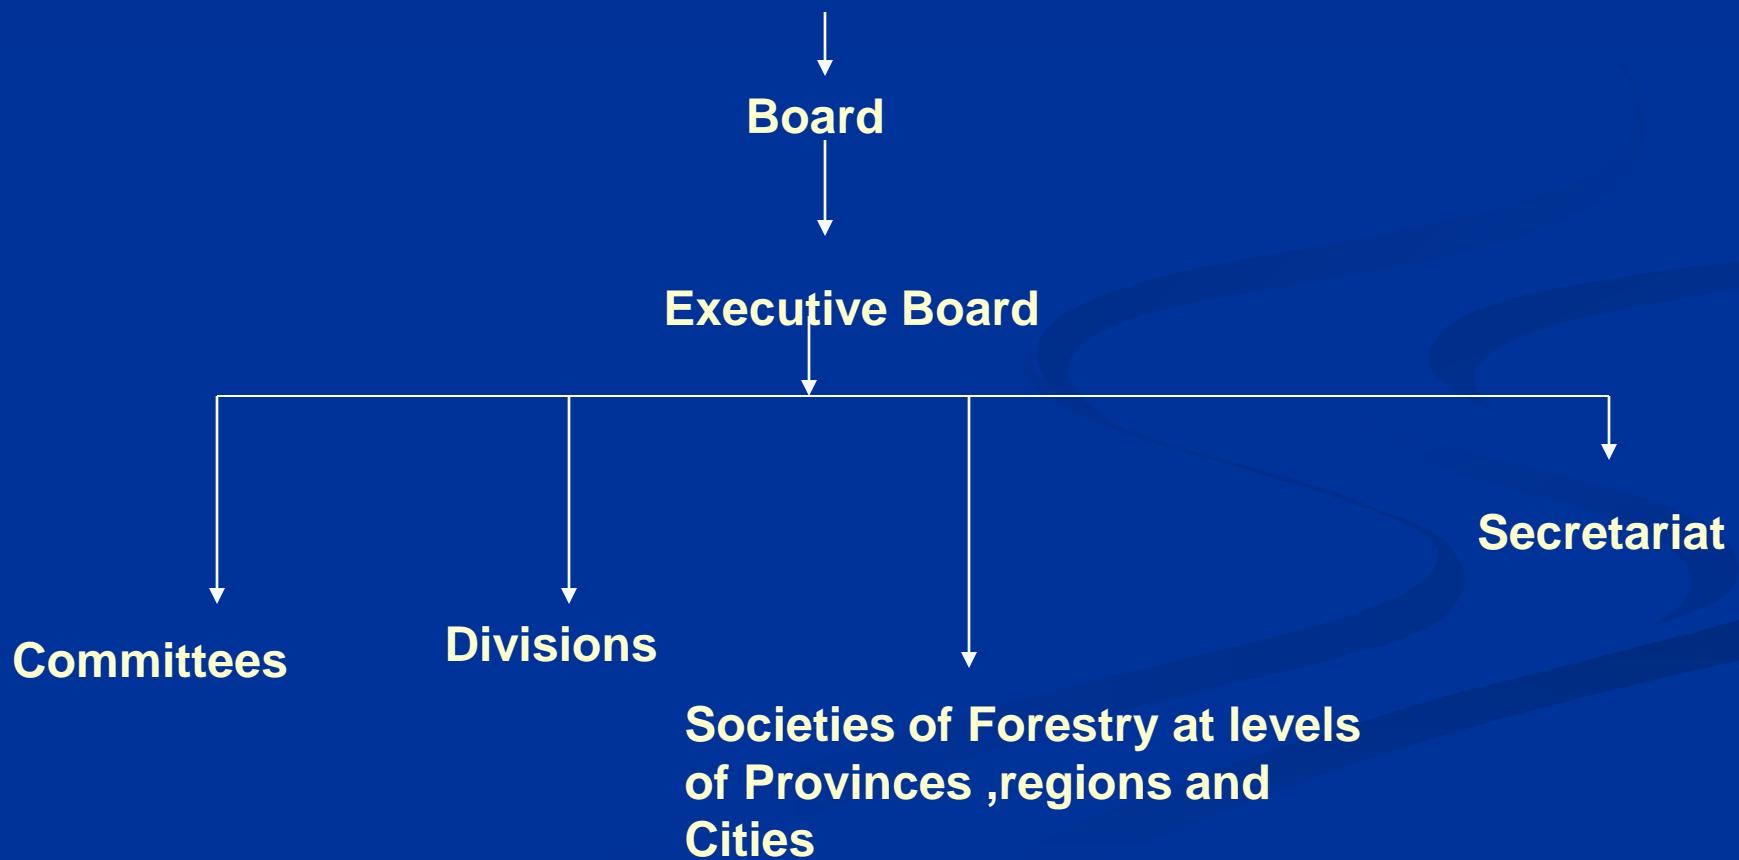

The highest authority of CSF is the National Member's Congress.

During the adjournment of CSF National Member's Congress, the Board of Directors is the leading institution.

When the Board of Directors adjourned, the Executive Board of Directors exercises the functions and powers.

# Organizational Structure

National Congress of Member Representatives

# Secretariat

There are six sections, 35 permanent staffs.  
That is administration ; Academic exchange;  
International cooperation and exchange;  
Science popularization; Consultate service  
and countinuing education; Forest Science  
(Scientia Silvae Sinicae ) edit

# 34 Divisions (1)

- 1. Wood Industry Division
- 2. Forest Machinery Division
- 3. Forest Chemistry and Chemical Industry Division
- 4. Wood Science Division
- 5. Forest Park Division
- 6. Forestry Computer Technology Application Division
- 7. National Poplar Committee Division
- 8. Eucalyptus Division

# 34 Divisions (2)

- 9. Bamboo Division
- 10. Dendrology Division
- 11. Forest Soil Division
- 12. Forest Management Division
- 13. Forest Pathology Division
- 14. Tree Genetics and Breeding Division
- 15. Forest Engineering Division
- 16. Forest Ecology Division

# Activities

- Academic Exchange
- Science Popularization
- International Cooperation and Exchange
- Consulting Service and Continuing Education
- Periodical Publications
- Awards and Honors

# Academic Exchange

- CSF hold conferences and Symposia for academic exchange every year
- Focusing on the hot and cutting-edge issues in forestry development

# Forest Science Conference in China

The Forum for  
the Youth in  
Forest Field

# Science Popularization

- Science Popularization of CSF has a long history, since 1977, it has leapt forward. As the main force for forestry-related science Popularization
- The popularization is mainly aiming at the youth and the staff of forestry sector as the target recipients, also at the improvement of the scientific literacy of forestry staff and the public's awareness of ecology as the core

## SUMMER CAMP

Technology week →

# WORKSHOP----- THE BASE FOR S&T POPULARIZATI ON

ARBOR DAY

# International Cooperation and Exchange

- CSF has established friendly cooperation and exchange with related NGOs or public organizations of US, Japan, Australia, New Zealand, Canada, South Korea, Germany, Brazil, Finland, Thailand and so on.
- International NGO-----  
IUFRO,WFC,FAO,WWF ,IUCN and so on

# International exchanges in recent years

- Sponsor international conferences focus on hot & important forestry issues.
- Participant in international activities on forestry to learn the newest development in the world and promote international cooperation.
- Established the platform for the forester's exchange between China and abroad.

# **Sponsor international conference focus on hot & important issues.**

- 1. International Conference on the Roles of Forests in Rural Development and Environmental Sustainability on April 20-21,2006 in Beijing**
- 2. International conference on the efforts in response to forest related Natural Disaster –the 1st Forest Science Forum on April 12-14 2010,Beijing**
- 3. Bioresource and Biodiversity Session (BioEco 2011) on June 27 2011 in Tianjin**

# International Conference on the Roles of Forests in Sustainable Development and Environmental Sustainability

Beijing, China April 19-21, 2006

# International Conference on the Roles of Forests in Rural Development and Environmental Sustainability

“森林在乡村发展和环境可持续中的作用”  
国际学术研讨会

## Organizers:

- Chinese Society of Forestry
- Japanese Forest Society
- Korean Forest Society

主办单位: 中国林学会、日本林学会、韩国林学会

## Hosts:

- International Society of Chinese Society of Forestry
- Chinese Society of Forestry
- Chinese Society of Forestry

协办单位: 国家林业局、中国林学会

Jiang Youxu

Prof. Zehui Jiang, Mr. YuCai Li and  
Mrs. Donghong Chen attended the conference

**International conference on the efforts in response  
to forest related Natural Disaster –the 1st Forest  
Science Forum April 12-14 2010 in Beijing**

—The 1<sup>st</sup> Forest  
Theme: Respect and grasp nature

Hosted by : Chinese Society of F

# The development prospect

1. Sponsor International Conference on Sustainable Forest Management The 2nd Forest Science Forum, on October 13-16 2012, Beijing
2. Organize Bilateral and multilateral international cooperation and exchange with Brazil, UK, USA and Canada in 2012

# **International Conference on Sustainable Forest Management The 2nd Forest Science Forum, October 13-16 2012, Beijing**

**Initiated By:**

- **Chinese Society of Forestry (CSF)**
- **International Union for Forest Research Organization (IUFRO)**
- **International Union for Conservation of Nature (IUCN)**

**Sponsored by:**

- **Chinese Society of Forestry (CSF)**
- **Beijing Forestry University (BFU)**

**Organized By:**  
**Chinese Society of Forestry (CSF) 's**  
**Silviculture Division 、 Forest**  
**Management Division 、 Forest Ecology**  
**Division 、 Urban Forest Division**

## **Conference Topics**

- (1) Sustainable forest management and multi-function forests**
  - a. Plantation and forest products,**
  - b. Carbon sequestration by forests**
  - c. Preservation of biodiversity**

d. Water and soil conservation and hydrological adjustment

e. Preservation of forest cultural heritages

(2).Techniques for sustainable forest management

a. Techniques for monitoring and evaluating multi-function forest resources

b. Sustainable forest management techniques and practices

c. Cultivation and utilization of bio-energy

**Key techniques for improving yields,  
quality, and efficiency of utilization of  
forest products**

- (3).Policy foundations for sustainable  
forest management**
  - a. Certification**
  - b. Participation of communities in forest  
resources management**
  - c. Forest management model and reform  
of the forest land tenure system**

# Consulting Service and Continuing Education

- To organize all kinds of training workshops and symposia for forestry staff at the different levels.

To provide consultation on forest-related decision-making, technology, and extension.

# Periodical Publications

- Forest Science ( *Scientia Silvae Sinicae* )
- Forest & human
- Newsletter

# Forest Science

*(Scientia Silvae Sinicae)*

- Forest Science was founded in 1955, Which is the classical comprehensive academic periodical in Chinese forestry sector.
- It has been honored for times with national Periodical Award.

## Journals

## Awards

# Award and Honors

- Nearly 30 years,
- Liangxi science and education fund,

## Award and Honors including:

- Liang Xi Award
- Chen Rong Award
- Jinsong Award

# Liang Xi award including:

- Forest science and technology
- Science and technology Popularization
- Excellent students
- Technical Papers of the Youth

# Thanks!
