## Best Practices for Urban Tree Management V

### Mission

We have organized four seminars on the management of urban trees in the past few years. The Hong Kong Institute of Horticultural Science and the School of Life Sciences are proud to present the 5th Seminar on Best Practices for Urban Tree Management.

The theme of this seminar is on proper tree management with special emphasis on tree pests like insects and fungi, and the roles of trees in slope greening and environmental protection. We are fortunate to have the support of scientists and tree experts from Mainland China, Taiwan and Hong Kong, and they would share their knowledge and experience with us.

The seminar will provide a common ground and platform to us all to share our views. Participants include government representatives, landscape architects, arborists, nature- and tree-lovers. We are convinced that this seminar shall broaden and deepen participants' understanding and skills of ecology, management of trees and prevention of diseases. Thank you very much for your participation.

### 使命

過往幾年，香港園藝專業學會與中文大學生命科學學院聯合舉辦了四屆有關都市樹木的管理研討學術會。由經驗所得及出席人士支持，我們今年繼續舉辦第五屆樹木研討會。

今次研討會重點分別為樹木與綠化斜坡及環保關係。我們有幸邀請到資深學者專家來港參加此次會議；分別來自中國內地、台灣及本地樹木專家學者；讓我們分享到樹木有關的意見。

研討會給予參加者與專家們一個交流與互動平台，出席人士包括政府代表、園境師、專家學者、樹木工作者及愛護樹木人士。我們深信這次研討會將會擴闊業界對都市樹木在生態、防治、管理、方法等知識。多謝大家出席參加！

## 講者簡介 Speakers' Biography

### Prof Syou-Jywan Wang 王秀娟教授

Prof Syou-Jywan Wang is the Chair and an Associate Professor in the Department of Landscape Architecture, Fu-Jen Catholic University. She obtained a MLA from the University of California, Berkeley. She is currently the vice president of the Taiwan Institute of Landscape Architecture, serves as a member in a number of Review Committees, including those of the Council of Urban Planning, Council of Urban Design for Danhai New Town, and Council of City & Town Landscape Planning, Construction & Planning Agency, Ministry of the Interior; Council of Urban Design and Council of Tree Protection, Taipei City; Council of Urban Design, New Taipei City; and Council of Urban Design, Taoyuan County. She is also a member of the Council of SIP, Environmental Protection Administration, Executive Yuan, and Council of Landscape, Directorate General of Highways, Ministry of Transportation and Communications, Taiwan.

### Prof Xiaoming Wang 王曉明教授

Prof Xiaoming Wang is a Senior Engineer and Professor (Master supervisor) in the Sun Yat-sen University and South China Agricultural University. He obtained his PhD from the South China Normal University in 1995. He taught in the Zhejiang Forestry College, and the Department of Biology in Shaanxi Normal University before moving to become director and senior engineer in various parks in Shenzhen. He was then appointed as the Deputy Director and Senior Engineer (Professor) of the Park Management Center in Shenzhen in 2010, and Fairy Lake Botanical Garden Management Office in Shenzhen in 2012. He has presided over the completion of seven research projects, and obtained five times the Guangdong Provincial Science and Technology Progress Award, the Shenzhen Science and Technology Progress Award, and the Shenzhen Innovation Award. He has published 44 papers and one monograph, and has trained six postgraduates.

### Prof Xueying Zhuang 莊雪影教授

Prof Xueying Zhuang is a Professor (PhD supervisor) and Associate Dean in Forestry College of the South China Agricultural University. She obtained a Master Degree from the South China Agricultural University and a PhD Degree from the University of Hong Kong. Currently she serves as the vice president of the Botanical Society of Guangdong Province and Guangdong Landscaping Society, vice chairman of the Seventh Committee of the Chinese Tree Association, and member of the Hong Kong Expert Panel on Tree Management. She has long been engaged in the teaching and research on forest plant taxonomy, plant ecology and plant resource science, arboriculture and landscaping in southern China, and has been involved in the compilation of the Hong Kong Plant List. She has edited 10 monographs and three textbooks, and published more than 150 academic articles.

### Mr Zhaohua Zhu 朱兆華先生

Mr Zhaohua Zhu is the Chief Engineer in landscape construction in the Shenzhen Master Environment Virescence and Construction Co Ltd. He obtained a Bachelor Degree in Agricultural Environmental Protection from the Northwest Agriculture and Forestry University, and a Master Degree in Environmental Engineering from the South China Agricultural University. He has been actively engaged in the technical development of ecological remediation for 12 years. He is also a senior intellectual property planner, member of the Shenzhen Expert Committee on Science and Technology, and member of the Shenzhen City Research Committee on Low Carbon Economy. He is the principal or collaborated investigator of more than 10 research projects, including a key project of the National Spark Program and the National 863 Program, and has obtained eight technological achievements, 12 patents and several awards.

### Mr KC Ng 伍介政先生

Mr KC Ng is the Deputy Director (North Region) of the Power System Business Group of CLP Power Hong Kong Limited. He is responsible for the overall management of the design, construction, operation and maintenance of the distribution network as well as the operation and maintenance of transmission system in North Region. He is leading the development of the vegetation management system as well as providing management support for the implementation of the safe working practices. He has extensive experience in project management, operation and maintenance of electrical power systems. In his earlier career, he was engaged in railway systems, building services, marine engineering and other infrastructure development. During his service in CLP Power, he held a number of posts in resources planning, safety & technical audit, district operation, customer services, IT system development and regional management.

### Prof Ji-Dong Gu 顧繼東教授

Prof Ji-Dong Gu is currently an Associate Professor in the School of Biological Sciences, The University of Hong Kong. His research focuses in environmental microbiology and toxicology. He has published more than 170 journal papers, 32 book chapters, co-edited a book with Ralph Mitchell on Environmental Microbiology (John Wiley-Blackwell, 2010), wrote a book on Biosusceptibility of Polymers and Fiber-reinforced Composites and Testing Methods (Springer, 2013). He also serves as the editor/associate editor for a number of international journals. Currently he serves as a member in the Committee of the Expert Panel on Tree Management in Development Bureau, HKSAR.

### Dr Alvin Tang 鄧銘澤博士

Dr Alvin Tang is a Fungal Disease Specialist and Arborist at Muni Arborist Limited, Hong Kong. He received his PhD in molecular phylogenetics of fungi from The University of Hong Kong in 2006 and has been studying fungal ecology and systematics for 13 years. He is well-known for his expertise in fungal identification and has been frequently interviewed by newspaper and television. He has discovered five new species of fungi in Hong Kong and Thailand and published articles in international journals, books, local magazines and newspapers. He gives lectures in Hong Kong, China and Thailand on arboriculture, tree risk assessment, plant pathology, plant ecology and edible mushroom.

### Mr Clive Lau 劉紹基先生

Mr Clive Lau is a Senior Agricultural Officer in the Plant and Pesticides Regulatory Division of the Agriculture, Fisheries and Conservation Department, Hong Kong SAR Government. He has obtained an MSc Degree in Environmental Resources Assessment and another in Technology of Crop Protection. He has substantial international experience in plant pests and plant quarantine, and a number of publications on Hong Kong insects. Mr. Lau has the largest collection of specimens of local insects and is accredited by professionals as the most knowledgeable insect expert in this part of the world.

### Mr Ken So 蘇國賢先生

Mr Ken So is the Chief Executive of the Conservancy Association, Hong Kong. He is one of the best known arborists in Hong Kong as he is often sought after by the media to comment on tree issues in Hong Kong. He started with a BSc degree (Hons) in applied biology and an MPhil degree on mycorrhiza. He has second BSc degree (Hons) in Arboriculture. He is also a technician member of the Arboriculture Association of UK. He is a certified arborist, municipal specialist and certified tree worker of the US based International Society of Arboriculture. He is a certified tree risk assessor of the Pacific North West ISA. He is recently appointed a member of the Expert Panel of Tree management of the Development Bureau of the Hong Kong SAR Government.

### Prof LM Chu 朱利民教授

Prof LM Chu is an Associate Professor in the School of Life Sciences at The Chinese University of Hong Kong. He obtained his BSc and MPhil from CUHK, and PhD from the University of Liverpool, UK. He is genuinely interested in environmental management, applied ecology and city landscaping. His current research focuses on restoration ecology, urban greening and pollution studies. He serves in a number of local government and non-government committees. He is the Chairman of the Committee on Campus Environment, and is recently appointed as the Interim Curator of the Shiu-Ying Hu Herbarium, CUHK. He has been active in promoting biological education for local students and teachers, and community engagement for horticultural practitioners.

### Mr Paul Chan 陳元敬先生

Mr. Paul Chan is the Vice-President of the Hong Kong Institute of Landscape Architect. He obtained Bachelor of Arts in Architectural Studies and Master Degree in Construction Project Management from the University of Hong Kong, he also obtained Bachelor of Law (LLB) from the Manchester Metropolitan University and subsequently Master of Landscape Architecture from the University of Hong Kong. Mr. Chan has over 15 years of experience in various roles within the construction industry. As a practising landscape architect, Mr. Chan has been involved in various planning and urban design projects, infrastructural projects, open space design, streetscape improvement, residential and mixed use development projects. He is a Director of Earthasia Limited, a leading landscape architectural consultancy in the region and Assistant Professor of the newly established Technological and Higher Education Institute of Hong Kong (THEI).

### Mr John Ho 何建尊先生

Mr John Ho is the Vegetation Manager of CLP Power Hong Kong Limited responsible for the operation and maintenance of the Integrated Vegetation Management Program for the power network. He is one of the pioneers in the development of the modern practical arboriculture industry in Hong Kong. He is keen to promote the professional practice of arboriculture and actively participate by serving various learning and professional institutions and government's committees related to tree management. He currently serves as the chair of the Steering Committee on ISA Hong Kong Chapter, as a member in the Committee of the Expert Panel on Tree Management in Development Bureau, HKSAR, as the convener of the Arboricultural Vocational Assessment Working Group in the Vocational Training Council, as a panel member of the Accredited Arboricultural Practitioner Vetting Panel in the Hong Kong Institute of Landscape Architects, and a council member of the Hong Kong Institute of Horticultural Science.

# Seminar Convenor

**Dr Eric YT Lee 李賢祉博士**

President, Hong Kong Institute of Horticultural Science

Dr Lee obtained his BSc in Biology from CUHK and his PhD from the University of California at Santa Cruz. He was a Mercer Fellow in the Arnold Arboretum, Harvard University. He has been the Head Greens Keeper of the Hong Kong Golf Club, the Tracks Manager of the Hong Kong Jockey Club, Resident Turf Specialist of INDECO Singapore and Senior Manager (Tracks) of the Singapore Turf Club. Dr Lee has been working in the turf industry for the past 36 years. He was involved in the initial construction and then consultation for the first golf course in China in 1982. He was credited as the first person who introduced the basic concept on turf management in golf course in China, and was labeled the most knowledgeable turf professional in this part of the world by the USGA's official publication "Turf Management" in 1985. He is now a senior honorary research fellow in the School of Life Sciences, CUHK and the president of the HKIHS.

# Officiating Guest

Ms Grace Lui 雷潔玉女士 JP

Deputy Secretary for Development (Works) 發展局副秘書長（工務）  
Hong Kong SAR Government 香港特別行政區政府

Ms Grace Lui joined the Hong Kong Government as an Administrative Officer in 1983. She has served in various policy bureaux and departments, including the Security Bureau, Constitutional and Mainland Affairs Bureau, Civil Service Bureau and Home Affairs Department. She assumed the post of Deputy Secretary for Home Affairs in July 2008 before her appointment in October 2011 as the Deputy Secretary for Development (Works) responsible for policies on construction manpower, heritage conservation, and greening, landscaping and tree management.

雷潔玉女士於一九八三年加入香港政府工作，任職政務主任職系，並曾在多個決策局及部門服務，包括保安局、政制及內地事務局、民政事務總署及公務員事務局。

雷女士於二零零八年七月出任民政事務局副秘書長，及於二零一一年十月，出任現職發展局副秘書長（工務），負責建造業人力資源、文物保育以及綠化、園境及樹木管理的政策事宜。
